

# 520S/520T Style

A = height from floor to chimney connection upwards  
 B = height from floor to c/c chimney connection rear  
 C = height from floor to air inlet  
 D = height from floor to lower edge of hatch

\* If the stove is placed on a hearth plate made of glass for example (accessory), the height from the floor is affected by a distance corresponding to the thickness of the hearth plate, for a free standing glass hearth plate this is 10 mm.

\*\* To prevent discolouration of painted non-flammable walls we recommend that the same side distance as to combustable walls is used.
